In a continuing effort to improve communication within the association, the EYHA Executive Board has created this form for parents/members to fill out and submit to the appropriate Level Director (LD) if they feel a violation in the Code of Conduct has taken place. The first half should be completed and then submitted to the Level Director. The LD will then contact the player/parent to discuss the matter. If the LD is not able to resolve the matter, it will be referred to the Executive Board for further review and discussion to resolve the matter with the player/parent.

We do not expect to receive many report forms, but thought a defined procedure should be established to enhance communication within the association.
